

REPORTS FROM EMBATTLED UKRAINE

See and hear the eyewitness reports from Ukraine!

Igor and Elena Yasno have just returned from the "killing fields" in Ukraine. They talked to the survivors of the 2022 brutal military invasion. These innocent people had lost their relatives, homes, livestock, jobs and possessions.

The Yasnos visited remote villages with a volunteer doctor to deliver food, medication and humanitarian aid. They've also met with many members of the Ukrainian Jewish community: rabbi's, military personnel, volunteers, and doctors.

Igor and Elena had survived nightly air raids of ballistic missiles and kamikaze drones targeting Kyiv. It was their most difficult trip, both physically and emotionally.

Now, the Yasnos are on a mission to tell the world about the brave people of Ukraine, who continue to fight for their life, freedom, land and dignity. Together, we shall help them to win and heal!
